 Tokyo 04:00 pm - 02:00 am

- Typical floor space within the tower is 1,520 m².
- All floors have a column-free space with only 14 round columns on the perimeter of every floor.
- The top floor serves as a mechanical floor and is not accessible to the public.
- Israel's highest restaurant is located on the 49th observation floor, offering great views of the city and the mediterranean.
- The elevator-cars travel about 7 meters per second, some of Israel's fastest.
- One of two towers in Israel to be the first to exceed 40 floors; the other is Azrieli Center Triangular Tower.
- First Israeli skyscraper with a rooftop helipad, the second was Arison Medical Tower.
- October 31, 2003, the first ever Azrieli Circular Tower run-up competition (with 1144 stairs to the top). Winners of the contest get to participate in the following year's Empire State Building run-up competition.
- Israel's tallest tower for 3 years; overtaken by the City Gate Ramat Gan in Ramat Gan in 2001.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
