## Facts

- The 28,000 m<sup>2</sup> fully unitized curtain wall consists of Italian (Verde Rita) and American (Solar White) granite.
- Components of the facade include aluminium in fluorocarbon finish inside and outside, double glazed units with low emissivity glass for the see-through windows, and reeded glass in spandrel areas.
- There are large glass walls from the base to the 6th floor, and again at the health club level on top.
- The building's plan features radiating sections, creating the abstracted shape of a pineapple: the main product of the Tipco Company.
