Height (floor-ceiling)	11.81 ft	Elevators	25
Floors (underground)	3		

Years and costs

Year (construction start)	1990	Building costs	\$ 400,000,000
Year (construction end)	1993		

Features & Amenities

- One of the city's famous buildings
- Floodlighting at night
- Handicapped accessible
- Illuminated logo on the facade

Facts

- Im Zentrum des Gebäudekomplexes befindet sich der Wintergarten, ein 900 Quadratmeter großer und 27 Meter hoher öffentlich zugänglich Raum. Er beinhaltet Geschäfte sowie Gastronomie und sorgt für eine Verbindung mit den umliegenden Wohnquartieren.
- Beim Bau des Hochhauses wurden 60.000 Kubikmeter Beton verarbeitet. Eine 4,65 Meter dicke Stahlbetonplatte trägt den 140.000 Tonnen schweren Gebäudekorpus.
- Der Wolkenkratzer ruht auf 40 Bohrpfehlen mit einem Durchmesser von jeweils 1,30 Metern und einer Länge von je 30 Metern.
- Der von dem amerikanischen Architekturbüro Kohn Pedersen Fox entworfene Bau wurde 1988 mit dem Preis der amerikanischen Fachzeitschrift "Progressive Architecture" ausgezeichnet.
- In Höhe des 52. Stockwerks wurde ein markanter Strahlenkranz installiert, der von Weitem wie eine Krone wirkt. Diese Konstruktion besteht aus 11 Zacken und ragt elf Meter über das Gebäude hinaus. Im Winter sorgt eine Beheizung dafür, dass sich kein Eis bildet und herunter fällt.
- Vor dem Hochhaus steht die Plastik "Inverted Collar and Tie" von Claes Oldenburg und Coosje van Bruggens.
- Die formschöne Krone auf dem Dach wurde vielerorts imitiert, so auch vom Gebäude The Palisades West.

Tokyo 04:00 pm - 02:00 am

- This building is located next to the City-Haus and belongs to the same bank.
- Several buildings have imitated this tower's crown, including The Palisades West in Vancouver.
- The steel crown on top of the building weighs 95 metric tons and is heated in winter to avoid icing.
- Awarded "Best Building of the Year" for 1995 by the American Chamber of Architects in the multifunctional skyscraper category.
- A sculpture of a giant tie by Claes Oldenburg and Coosje van Bruggen is set up in front of the entrance.
- Frankfurt's fire brigade trains here for emergency situations.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
