|----------------------------------|------|--------------------------------|------|

Features & Amenities

- One of the city's famous buildings
- Observation floor is available

Facts

- Building plans indicate the structural height is 146 meters from the Cordova Street elevation on the north side, rear of complex, making Harbour Centre the city's tallest building from 1977-2001 (458 feet from Hastings Street main entrance).
- Capped with a popular "Space Needle-like" platform on a pedestal with revolving restaurant on top level accessed by two outside glass elevators.

- The Vancouver Lookout viewing deck is advertised as being 550 feet above sea level.
- The observation deck was officially opened on August 13, 1977 by astronaut Neil Armstrong, the first man on the moon, who left his footprint in cement to mark the occasion.
- Proposed as 179 meters (586 feet without the 100 foot high pylon) but the City would only approve the shorter version.
- Vancouver's tallest building from 1977-present when the 100-foot illuminated ornamental pylon is included as part of its overall height, making the tower 581 feet from Cordova Street to the spire tip.
- The overall Harbour Centre complex contains a gross area of 594,172 ft², approximately half office and half retail.
- BOMA Go Green Certified February 2006.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
