## Years and costs

<b>Year (construction start)</b>	1966	<b>Year (construction end)</b>	1973
----------------------------------	------	--------------------------------	------

## Features & Amenities

- One of the city's famous buildings
- Helipad is available
- Observation deck on roof
- Observation floor is available

## Facts

- Two World Trade Center had the world's highest outdoor observatory platform on its roof.
- A traditional elevator configuration would have required half of the lower floors' area to be occupied by shafts. To save space, Otis Elevator Company developed an express and local system whereby passengers change at "sky lobbies" at the 44th and 78th floors, cutting the number of shaftways in half.
- The twin towers were the first super-tall buildings designed without any masonry.
- On 7th August 1974, French high wire artist Philippe Petit made an illegal tightrope walk back and forth between One and Two World Trade Center towers that lasted almost an hour.
- The building was destroyed in the terrorist attacks of September 11th 2001. An aircraft hit the building at the 85th floor at 9:03 am; the building collapsed at 9:59 am.

# Get Emporis Research today and benefit from our worldwide database now!

## Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

## Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

## Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

## Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
