Height (roof)	206.17 ft	Elevators	6
Floors (underground)	1	Gross Floor Area (GFA)	Contact us

Years and costs

Year (construction start)	2000	Building costs	\$ 28,000,000
Year (construction end)	2001		

Features & Amenities

- One of the city's famous buildings

Facts

- Proposed for the first time in 1990; the development was protested on the grounds that it would mar the view from the nearby outdoor historical museum called "Den Gamle By".
- Approved by Århus City Council on September 13, 1995, more than 4 years before construction started.
- Prismet was officially completed August 15, 2001.
- Tallest high-rise building in Jutland, Denmark, from 2001 to 2003. Surpassed by KPMG Huset.
- Prismet consists of both the glass tower and a lowrise wing ranging from 2-4 floors.
- The footprint of the tower is only 550 square meters.

- First high-rise building in Denmark with an all-glass facade.
- The elevators use a system that automatically takes empty ones to the floors with the most traffic.
- An underground carpark is connected to the building.
- Before Prismet was built, the brewery across the street raised their chimney from 37 to 77 meters to avoid emissions on the new structure.
- The building has a special designed crane on the top used for window washing.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
