Years and costs

Year (construction start)	2005	Year (construction end)	2006
----------------------------------	-------------	--------------------------------	-------------

Facts

- Almost half of the units were reserved by the end of October. Site work began in February 2005.
- The two towers share 372 parking spaces in a 2-level underground garage.
- There is no numbered 13th floor.
- These towers are almost entirely glass, featuring expansive views of the Minnesota River Valley and National Wildlife Refuge just to the south.
- Marketing for this tower began in October 2004.
- Because of its location at the south end of the new North-South runway at Minneapolis-St. Paul International Airport, it features triple-paned glass, no balconies, and is without openable windows.
- The tower has a green roof, minimizing surface runoff.
- This, and the neighboring Reflections East Tower share a common one-story lobby.
- This building received LEED (Leadership in Energy and Environmental Design) certification from the US Green Building Council in Spring 2007. With its sister tower, it becomes the first LEED high-rise in Minnesota.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
