Years and costs

Year (construction start)	1976	Year (last renovation)	2001
Year (construction end)	1978		

Facts

- The Ferry Family Foundation donated \$2.5 million to establish the Detroit Science Center, which occupied a small storefront.
- The center underwent an extensive, \$30 million renovation and expansion from July 2000 to July 2001, which added 40,000 square feet of new space.
- The Detroit Science Center was closed in 1991 due to state funding cuts. To raise money to reopen, the institution rented out the center and sold an adjacent plot of land for the construction of the Dr. Charles H. Wright Museum of African-American History securing a 1992 reopening of the Center.
- The Science Center includes a domed IMAX theatre, a Dassault Systèmes Planetarium, Ford Learning Resource Center, the DTE Energy Sparks Theater, the DaimlerChrysler Science Stage, an 8,700 square-foot Science Hall for traveling exhibits, five exhibit laboratories, and a Special Events lobby.

Get Emporis Research today and benefit from our worldwide database now!

Analyze buildings, construction markets, regions and competitors

- 450,000 buildings from a wide range of categories such as residential, office, retail, hospitality and many more
- Choose from a broad range of regional data packages – or create your own
- Powerful and fast search for in-depth analysis
- Detailed search queries in over 50 data fields, e.g. filter by location, size, status, building usage and construction types
- Generate customized lists of construction projects and involved companies

Generate leads and explore new business opportunities

- Get contact information for over 160,000 companies
- Search for companies related to specific construction projects or generate lists according to particular fields of activity
- Find new clients and business partners or connect with key players in new markets
- Forecast trends and future market growth
- Spend less time researching, and more time doing business

Keep up to date and ahead of your competitors

- Get constantly-reviewed data from around the globe
- 24/7 access to the database from anywhere in the world
- View detailed information about existing buildings as well as those planned and under construction
- Save your searches for easy future reference
- Receive email notifications about new content fitting your criteria

Download data and put it to work

- Export information easily to CSV/Excel files
- Individually select data fields for your specific needs
- Integrate the data into your own internal system
- Provide your staff with actionable data
- Benefit from limitless downloads within your chosen package
